Response to COVID-19

Responding to COVID-19 in African Countries:

Data Deck of Polling Results: Zimbabwe

August 2020

INTRODUCTION

The COVID-19 pandemic continues to impact societies across health, financial and day to day life.

This document provides the findings from public opinion polls in Zimbabwe to understand the public's knowledge, risk perception, attitudes, access to information, reactions, behaviors and practices related to COVID-19.

This Data Deck is supplemented by an Executive Summary of the findings by country.

METHODOLOGY

The public opinion poll in Zimbabwe was conducted between 7 August and 17 August 2020. The polling was conducted by telephone.

Samples were drawn to be nationally representative of each Member State; weighting was applied by gender and region to align the final data with the population. The unweighted national sample size in Zimbabwe is 1,333 interviews.

Additional Methodology Details

- The public opinion polling was conducted using a telephone interviewing methodology.
- The questionnaire was developed by Resolve to Save Lives, Ipsos and members of the PERC consortium.
- The polling program was approved by local review boards and all respondents gave explicit permission to participate in the polling.
- Note that where referenced, income categories should be interpreted as indicative as sample sizes vary and income reporting can be subject to bias.
- The weighted sample sizes for the demographic breaks in this report are as follows:

	Total	Male	Female	18-25	26-35	36-45	46-55	56+	Urban	Rural	Under 100	101 - 200	201 - 500	501+
Base: All	1200	577	623	244	407	258	169	122	394	806	1000	44	31	19

- The percentages reported in this document may be different from percentages reported in other PERC products and communication of this data. Differences may be reconciled by investigating the denominator used, as indicated in each instance of use.

Reasons for not wearing a face mask

Q6. We are trying to better understand why some people have a face mask and some don't. You say that you currently don't have a mask. Why is that?

Sample size not sufficient for analysis

Impact of the virus

3

Impact of the virus

Q7a. To what extent do you agree or disagree with the following statements?

Impact of the virus

Q7b. To what extent do you agree or disagree with the following statements?

Q7b. I am confident in my ability to follow information and restrictions given by the government to reduce my risk of getting COVID-19

Perceived risk of contracting COVID-19

Q8. Please indicate what you think your level of risk of catching coronavirus or COVID-19 is:

Perceptions of the scale of the problem

Q9. If you were infected by coronavirus or COVID-19, how seriously do you think it would affect your health?

Trust & response

4

Trust in organizations – % A great deal or a fair amount

Q12a-p. To what extent, if at all, do you trust each of the following individuals and organizations' handling of the coronavirus in [COUNTRY]? (% A great deal or A fair amount)

Social cohesion

Q10c. There are public health guidelines recommended to restrict the spread of coronavirus. These include maintaining a minimum distance from people you are not in contact with regularly and limiting the number of people who can gather together. Which is closer to your point of view about these recommended actions?

		Gender		Age					Urbanity		Household Monthly Income (USD)			
	Total	Male	Female	18-25	26-35	36-45	46-55	56+	Urban	Rural	Under 100	101 - 200	201 - 500	501+
Base: All	1200	577	623	244	407	258	169	122	394	806	1000	44	31	19
Taking these actions will <u>protect others I come in contact with</u> from getting infected with COVID-19	94%	94%	95%	93%	95%	95%	95%	92%	94%	95%	95%	91%	89%	90%
taking these actions will have <u>no impact in protecting others I come in contact with</u> from getting infected	5%	5%	5%	6%	4%	4%	4%	6%	5%	4%	4%	9%	11%	0%

Loosening restrictions now versus getting the economy moving

Q16. Some people say that loosening restrictions now puts too many people at risk of contracting COVID-19 and we need to wait at least a few more weeks. Other people say that the health risk is minimal if people follow social distancing rules and we need to get the economy moving again. Which is closer to your point of view?

		 Gender		 Age					 Urbanity		 Household Monthly Income (USD)			
	Total	Male	Female	18-25	26-35	36-45	46-55	56+	Urban	Rural	Under 100	101 - 200	201 - 500	501+

Q22. Why have you or another person in your household delayed, skipped or been unable to complete health care visits since the COVID-19 crisis?

		Gender		Age					Urbanity		Household Monthly Income (USD)			
	Total	Male	Female	18-25	26-35	36-45	46-55	56+	Urban	Rural	Under 100	101 - 200	201 - 500	501+
Base: All who have had delayed, skipped or incomplete health care visits	240	108	132	45	92	47	32	23	89	151	205	7	10	3
Couldn't get to health care facility due to lockdown/curfew	27%	25	28	36	22	21	30	31	30	25	28	36	18	0
Health care facilities have been too busy/couldn't get an appointment/they couldn't see me/not enough health care workers	18%	20	16	14	17	29	14	8	20	16	17	26	9	33
Health care facilities have been closed	15%	14	16	25	13	14	6	16	14	15	16	12	0	0
Couldn't afford it	17%	17	17	14	19	12	12	28	18	16	17	0	18	0
Health care facility too far away/nobody to take me/public transport not working	15%	18	13	16	18	14	19	4	15	16	15	24	8	0
My health care issue did not seem urgent/wanted to free up facilities for those who may need it more	8%	8	9	6	11	6	6	8	9	8	8	13	10	35
Worried about going out/risk of catching coronavirus at health facility	7%	5	9	6	8	4	12	8	9	6	7	0	9	0
Not had time due to childcare/schools being closed	4%	5	4	0	3	5	11	9	5	4	3	0	19	0
Not had time due to caring for sick household member(s)	3%	3	3	0	1	6	9	4	3	3	2	0	17	0
Not had time generally	3%	2	4	2	2	2	3	12	3	3	2	13	0	32
Self-isolating with suspected COVID-19 symptoms	2%	3	1	2	0	6	0	4	3	1	2	0	8	0
Don't know	2%	2	3	4	3	2	0	0	1	3	1	0	10	0

Purpose of delayed, skipped or unable to complete health care visits

Q23. And do you mind if I ask what those delayed, missed or not completed health care visits were for?

		 Gender	 Age						 Urbanity		 Household Monthly Income (USD)			
	Total	Male	Female	18-25	26-35	36-45	46-55	56+	Urban	Rural	Under 100	101 - 200	201 - 500	501+
Base: All who have had delayed, skipped or incomplete health care visits	240	108	132	45	92	47	32	23	89	151	205	7	10	3

Access to medication

Q24. Has the COVID-19 crisis made it more difficult to obtain medications you need for you or your household or has it had no impact? If you do not need medications, please say so.

Had difficulty getting medications (rebased to those needing medication)

Q24. Has the COVID-19 crisis made it more difficult to obtain medications you need for you or your household or has it had no impact? If you do not need medications, please say so.
