Responding to COVID-19 in African Member States:

Data Deck of Polling Results: Zimbabwe

September 2021

The National
Academies of
SCIENCES
ENGINEERING
MEDICINE

INTRODUCTION

This deck provides the survey results for Zimbabwe and should be used as a reference document.

This is the fourth poll and analysis conducted since the pandemic began. The first poll occurred in May 2020, the second in August 2020, and the third in February 2021. Results of the second survey (S2) and third survey (S3) are provided for tracking purposes against this fourth survey (S4) where the questions are comparable. Results from the first poll are not included as the first poll was done in urban centers only and cannot be compared to the national polls conducted in the second and third polls.

The published reports for the second, third and fourth surveys can be found here: <https://preventepidemics.org/covid19/perc/>

METHODOLOGY

This fourth public opinion poll in Zimbabwe was conducted from 10 September 2021 to 22 September 2021.

The polling was conducted by telephone. Samples were drawn to be nationally representative of the population with access to a landline or cell phone in each Member State. Weighting was applied by gender and region to align the final data with the population.

The unweighted national sample size in Zimbabwe is 1227 interviews. The weighted sample size is 1,200 interviews.

The regional comparison for Zimbabwe is the Southern region which includes Mozambique, South Africa and Zambia.

Socio Demographic Table

	Country	Sex		Age					Household location	
	Total	Male	Female	18-25	26-35	36-45	46-55	56+	Urban	Rural

Impact of the virus and risk perception

2

Impact of the virus

Q4. To what extent do you agree or disagree with the following statements?

Q4a. The coronavirus will affect very many people in the country I'm currently living in

All countries surveyed	Region	Zimbabwe Survey Comparison	Gender	Age	Household location	Monthly Income	Have / intend to vaccinate	Missed Health Care Visit
ZIMBABWE SEPTEMBER 2021								

Impact of the virus

Q4. To what extent do you agree or disagree with the following statements?

Q4b. I am confident in my ability to follow information and restrictions given by the government to reduce my risk of getting COVID-19

All countries surveyed	Region	Zimbabwe Survey Comparison	Gender	Age	Household location	Monthly Income	Have / intend to vaccinate	Missed Health Care Visit
ZIMBABWE SEPTEMBER 2021								

Impact of the virus

Q5. Please indicate what you think your level of risk of catching coronavirus or COVID-19 is:

All countries surveyed	Region	Zimbabwe Survey Comparison	Gender	Age	Household location	Monthly Income	Have / intend to vaccinate	Missed Health Care Visit
ZIMBABWE SEPTEMBER 2021								

Impact of the virus

Q6. If you were infected by coronavirus or COVID-19, how seriously do you think it would affect your health?

Trust & response

3

Satisfaction with government response

Q8. How satisfied are you with your government’s response to coronavirus or COVID-19?

Trust in organizations – % Top 2 Boxes (A great deal or a fair amount)

Q9a-q. To what extent, if at all, do you trust each of the following individuals and organizations' handling of the coronavirus in Zimbabwe? (% A great deal or A fair amount)

Contact with others: in household

Q27. Over the last 24 hours how many people have you had contact with? Please include people you have been within two meters of and exchanged at least a few words OR had physical contact with. Please do not include people whom you have only passed by on the street, while using public transportation, or in a market without speaking to. We would like you to think about the following settings...?

a) People within your household (INTERVIEWER: This means people within the respondents' household, not visitors)

						Gender		Age					Household location		Monthly Income		Have / intend to vaccinate		Missed Health Care Visit	
	All Countries	Southern	S4	S3	S2	Male	Female	18-25	26-35	36-45	46-55	56+	Urban	Rural	Low Income	High Income	Yes	No	Since March	Since Pandemic start
