# Concern about seven day services is low compared with other issues

*Overall, which of the following, if any, do you see as the biggest problems facing the NHS?*

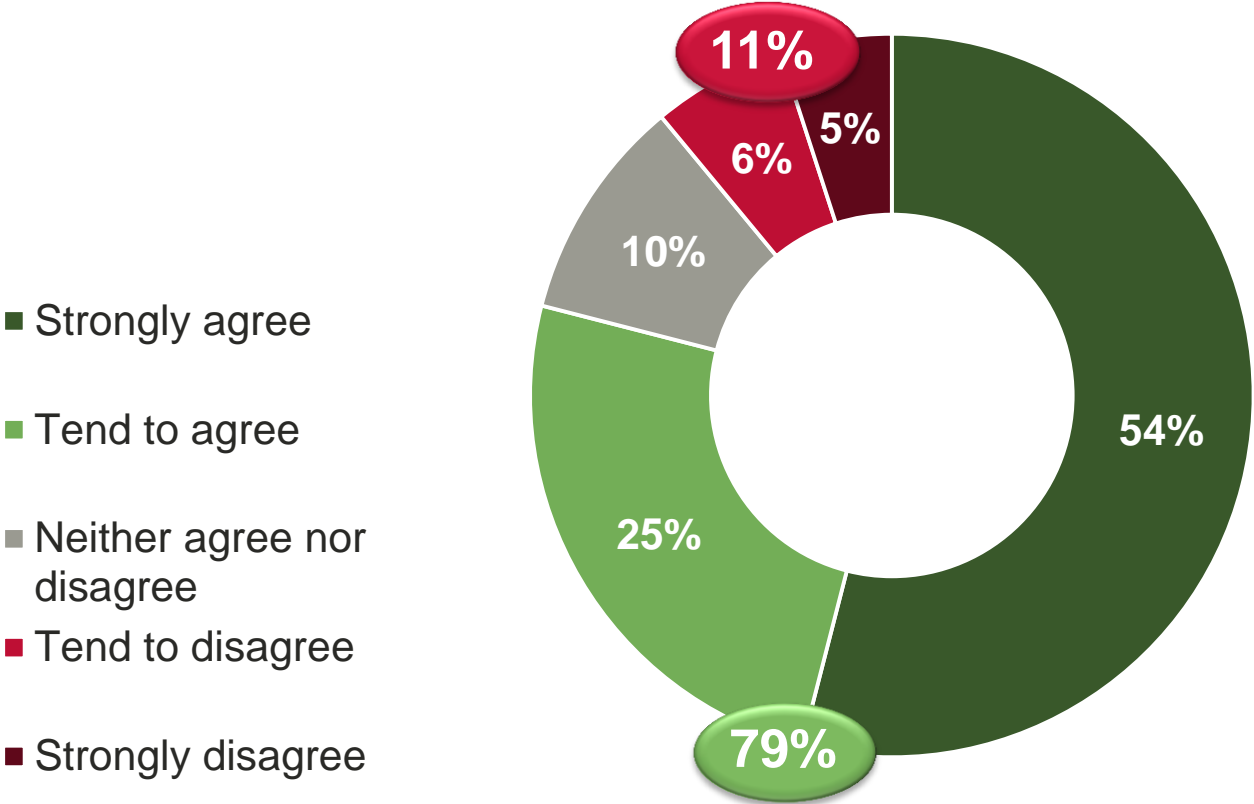

Base: 1,123 adults in England, aged 16+, percentages sum to greater than 100 due to respondents being able to give more than one response

# But when presented with the option – they want standard of service to be guaranteed

*Please tell me to what extent you agree or disagree with the following statement:  
The NHS should provide the same standard of service to patients at the weekend as during the week*

# And while quality is seen by some as a reason for seven day services, most think that it's just a way of getting appointments on tap

*The government is proposing seven day health services for the NHS. For what reasons, if any, do you think this might be needed? If you don't think this needed, please say so (unprompted)*
