ATTITUDES TOWARDS USE OF GREEN BELT LAND

15 Jul 2015

Table 4

JQ02 - In England, the Green Belt is agricultural and/or largely undeveloped land around or between large urban areas on which building is not allowed. The purposes of this, according to the National Planning Policy Framework, are to prevent large urban areas from spreading out or merging together, and in some cases to preserve the character of historic towns and cities. However, some people argue that it is necessary to build on parts of the Green Belt to meet housing and other needs and prevent other areas beyond the Green Belt from being built on. To what extent do you agree or disagree, in principle, that existing Green Belt land in England should be retained and not built on.

ATTITUDES TOWARDS USE OF GREEN BELT LAND

15 Jul 2015

Table 5

JQ02 - In England, the Green Belt is agricultural and/or largely undeveloped land around or between large urban areas on which building is not allowed. The purposes of this, according to the National Planning Policy Framework, are to prevent large urban areas from spreading out or merging together, and in some cases to preserve the character of historic towns and cities. However, some people argue that it is necessary to build on parts of the Green Belt to meet housing and other needs and prevent other areas beyond the Green Belt from being built on. To what extent do you agree or disagree, in principle, that existing Green Belt land in England should be retained and not built on.

	Page	Table	Title	Base Description	Base
●	1	1	JQ01 - Before this interview, how much, if at all, did you know about Green Belt land?	Base: All Respondents	845
●	2	2	JQ01 - Before this interview, how much, if at all, did you know about Green Belt land?	Base: All Respondents	845
●	3	3	JQ01 - Before this interview, how much, if at all, did you know about Green Belt land?	Base: All Respondents	845
●	4	4	JQ02 - In England, the Green Belt is agricultural and/or largely undeveloped land around or between large urban areas on which building is not allowed. The purposes of this, according to the National Planning Policy Framework, are to prevent large urban areas from spreading out or merging together, and in some cases to preserve the character of historic towns and cities. However, some people argue that it is necessary to build on parts of the Green Belt to meet housing and other needs and prevent other areas beyond the Green Belt from being built on. To what extent do you agree or disagree, in principle, that existing Green Belt land in England should be retained and not built on.	Base: All Respondents	845
●	5	5	JQ02 - In England, the Green Belt is agricultural and/or largely undeveloped land around or between large urban areas on which building is not allowed.
