Table 33
 (NOV16)Q16. As you may know, there is a benefit cap that applies to people aged 16-64, who are not working or who work less than 16 hours a week. It applies to benefits such as child tax credit, housing benefit, jobseeker's allowance and income support, but excludes others such as disability living allowance. Earlier this month the maximum amount a household could receive was reduced from £26,000 per year to £20,000 outside London (and £23,000 inside London). To what extent, if at all, do you support or oppose reducing the maximum amount of benefits a household can receive from £26,000 per year to £20,000?

(NOV16)Q16. As you may know, there is a benefit cap that applies to people aged 16-64, who are not working or who work less than 16 hours a week. It applies to benefits such as child tax credit, housing benefit, jobseeker's allowance and income support, but excludes others such as disability living allowance. Earlier this month the maximum amount a household could receive was reduced from £26,000 per year to £20,000 outside London (and £23,000 inside London). To what extent, if at all, do you support or oppose reducing the maximum amount of benefits a household can receive from £26,000 per year to £20,000?

(NOV16)Q17. Now I'd like to ask you about Britain leaving the European Union. As you may know, formal negotiations over Britain's exit from the European Union cannot begin until Britain gives official notice that it intends to leave, under Article 50 of the treaty. Recently, the High Court has said that the government may not trigger Article 50 without a vote in favour from parliament. Some MPs and peers also want the vote to be about the terms of Britain's future relationship with the EU, while others think the Government should be left to negotiate the terms as it sees best. If there is a vote in parliament, which of the following options is closest to your view?
