# Technical details

This presents the topline results from Scotland.

Results are based on a survey of 1,000 respondents (adults aged 16+) conducted by telephone

**Fieldwork dates:** 6<sup>th</sup> – 12<sup>th</sup> June 2016.

**Data are weighted by:** age, sex, education qualification and working status using census data; tenure using SHS data; and public-private sector employment using Scottish Government Quarterly Public Sector Employment series data

Where results do not sum to 100%, this may be due to computer rounding, multiple responses, or the exclusion of “don’t know” categories

Results are based on all respondents (1,000) unless otherwise stated.
