Technical Details

Voting intention figures are based on those who say they are certain to vote in a general election. They exclude those who say they would not vote, are undecided or refuse to name a party.
Ipsos MORI interviewed a representative sample of 1,016 adults aged 18+ across Great Britain. Interviews were conducted by telephone, 9th to 11th June. Data are weighted to match the profile of the population. Where percentages do not sum to 100 this may be due to computer rounding, the exclusion of "don't know" categories, or multiple answers.
