**Ipsos/McClatchy Poll  
PROJECT #81-4621-23**

**NOTE: all results shown are percentages unless otherwise labeled.**

*These are some of the findings of an Ipsos poll conducted April 2 - 6, 2009. For the survey, a nationally representative, randomly selected sample of exactly 1138 adults aged 18 and older across the United States was interviewed by Ipsos. With a sample of this size, the results are considered accurate within 2.91 percentage points, 19 times out of 20, of what they would have been had the entire adult population in the U.S. been polled. All sample surveys and polls may be subject to other sources of error, including, but not limited to coverage error, and measurement error. These data were weighted to ensure that the sample's composition reflects that of the actual U.S. population according to U.S. Census figures. Respondents had the option to be interviewed in English or Spanish.*
