Strongly agree	28%
Somewhat agree	36%
Somewhat disagree	13%
Strongly disagree	16%
(DK/NS)	7%

**METHODOLOGY:**

The Orbitz-Ipsos poll was conducted from April 23-27th, 2009. A nationally representative sample of 1,000 randomly-selected adults aged 18 and over residing in the U.S. was interviewed by telephone via Ipsos' U.S. Telephone Express omnibus. With a sample of this size, the results are considered accurate within ± 3.1 percentage points, 19 times out of 20, of what they would have been had the entire population of adults in the U.S. been polled. The margin of error will be larger within regions and for other sub-groupings of the survey population. These data were weighted to ensure the sample's regional and age/gender composition reflects that of the actual U.S. population according to data from the U.S. Census Bureau.
