BV6_1. [If I were considering a purchase and saw one product that was made in .... and a similar product fora lower price made in another country I would usually choose the lower priced item.] Outsourcing is a term used when a company in one country contracts people in another country to produce their product or service. Often these goods and services are produced elsewhere because the labor or material cost is lower. Please indicate if you agree very much, agree somewhat, disagree somewhat, or disagree very much with the following statements:

BV6_4. [In the last 12 months someone in my family has started a job because that job was outsourced to my country.] Outsourcing is a term used when a company in one country contracts people in another country to produce their product or service. Often these goods and services are produced elsewhere because the labor or material cost is lower. Please indicate if you agree very much, agree somewhat, disagree somewhat, or disagree very much with the following statements:

BV6. [SUMMARY - TOP2BOX] Outsourcing is a term used when a company in one country contracts people in another country to produce their product or service. Often these goods and services are produced elsewhere because the labor or material cost is lower. Please indicate if you agree very much, agree somewhat, disagree somewhat, or disagree very much with the following statements:

BV6. [SUMMARY - TOP2BOX] Outsourcing is a term used when a company in one country contracts people in another country to produce their product or service. Often these goods and services are produced elsewhere because the labor or material cost is lower. Please indicate if you agree very much, agree somewhat, disagree somewhat, or disagree very much with the following statements:

BV6. [SUMMARY - TOP2BOX] Outsourcing is a term used when a company in one country contracts people in another country to produce their product or service. Often these goods and services are produced elsewhere because the labor or material cost is lower. Please indicate if you agree very much, agree somewhat, disagree somewhat, or disagree very much with the following statements:

BV6. [SUMMARY - LOW2BOX] Outsourcing is a term used when a company in one country contracts people in another country to produce their product or service. Often these goods and services are produced elsewhere because the labor or material cost is lower. Please indicate if you agree very much, agree somewhat, disagree somewhat, or disagree very much with the following statements:

BV6. [SUMMARY - LOW2BOX] Outsourcing is a term used when a company in one country contracts people in another country to produce their product or service. Often these goods and services are produced elsewhere because the labor or material cost is lower. Please indicate if you agree very much, agree somewhat, disagree somewhat, or disagree very much with the following statements:

BV6. [SUMMARY - LOW2BOX] Outsourcing is a term used when a company in one country contracts people in another country to produce their product or service. Often these goods and services are produced elsewhere because the labor or material cost is lower. Please indicate if you agree very much, agree somewhat, disagree somewhat, or disagree very much with the following statements:

BV6. [SUMMARY - LOW2BOX] Outsourcing is a term used when a company in one country contracts people in another country to produce their product or service. Often these goods and services are produced elsewhere because the labor or material cost is lower. Please indicate if you agree very much, agree somewhat, disagree somewhat, or disagree very much with the following statements:

BV6. [SUMMARY - LOW2BOX] Outsourcing is a term used when a company in one country contracts people in another country to produce their product or service. Often these goods and services are produced elsewhere because the labor or material cost is lower. Please indicate if you agree very much, agree somewhat, disagree somewhat, or disagree very much with the following statements:
