

Methodology

These are the findings of the **Global @dvisor Wave 19 (G@19)**, an Ipsos survey conducted between **March 2nd and March 14th**.

The survey instrument is conducted monthly in 24 countries around the world via the Ipsos Online Panel system. The countries reporting herein are Argentina, Australia, Belgium, Brazil, Canada, China, France, Great Britain, Germany, Hungary, India, Indonesia, Italy, Japan, Mexico, Poland, Russia, Saudi Arabia, South Africa, South Korea, Spain, Sweden, Turkey and the United States of America.

For the results of the survey presented herein, an international sample of 18,531 adults aged 18-64 in the US and Canada, and age 16-64 in all other countries, were interviewed. Approximately 1000+ individuals participated on a country by country basis via the Ipsos Online Panel with the exception of Argentina, Belgium, Indonesia, Mexico, Poland, Saudi Arabia, South Africa, South Korea, Sweden and Turkey, where each have a sample approximately 500+.

Weighting was then employed to balance demographics and ensure that the sample's composition reflects that of the adult population according to the most recent country Census data, and to provide results intended to approximate the sample universe. A survey with an unweighted probability sample of this size and a 100% response rate would have an estimated margin of error of +/- 3.1 percentage points for a sample of 1,000 and an estimated margin of error of +/- 4.5 percentage points 19 times out of 20 per country of what the results would have been had the entire population of adults in that country had been polled. All sample surveys and polls may be subject to other sources of error, including, but not limited to coverage error, and measurement error.

CF5. In fact, WikiLeaks recently posted thousands of confidential US government diplomatic notes and cables that were apparently leaked to them by a disgruntled US soldier. In some cases this has caused diplomatic embarrassment, in other cases it has exposed individuals whose lives may now be in jeopardy. In this specific case do you think the owner of the site, Julian Assange, who is responsible for leaking the documents should be viewed as a...

CF5. In fact, WikiLeaks recently posted thousands of confidential US government diplomatic notes and cables that were apparently leaked to them by a disgruntled US soldier. In some cases this has caused diplomatic embarrassment, in other cases it has exposed individuals whose lives may now be in jeopardy. In this specific case do you think the owner of the site, Julian Assange, who is responsible for leaking the documents should be viewed as a...
