Interviews: 1014 adults

**RBC Consumer Outlook Index Survey
CONDUCTED BY IPSOS PUBLIC AFFAIRS**

These are some of the findings of an Ipsos online poll conducted June 28-July 1, 2011. For this survey, a national sample of 1,014 adults from Ipsos' U.S. online panel was interviewed online. Weighting then was employed to balance demographics and ensure that the sample's composition reflects that of the U.S. adult population according to Census data and to provide results intended to approximate the sample universe. Statistical margins of error are not applicable to online polls because they are based on samples drawn from opt-in online panels, not on random samples that mirror the population within a statistical probability ratio. All sample surveys and polls may be subject to other sources of error, including, but not limited to coverage error, and measurement error.

NOTE: all results shown are percentages unless otherwise labeled.
