CYBERBULLYING

Citizens in 24 Countries Assess Bullying via Information Technology for a Total Global Perspective

> A Global @dvisory – December 2011 – G@27 CYBERBULLYING

Analytic Components

Cyberbullying is when a child or group of children (under the age of 18) intentionally intimidate, offend, threaten or embarrass another child or group of children <u>specifically through the use of information technology</u>, such as a website or chat room on the Internet, a cellular telephone or another mobile device.

- Have you ever seen, read or heard anything about cyberbullying?
 - Yes
 - No

Which of the following comes closest to your point of view? Some people believe that [INSERT STATEMENT A OR B – ROTATE]. Others believe that [INSERT STATEMENT A OR B – ROTATE]. Which of these statements comes closer to your own point of view?

- <u>STATEMENT A</u> cyberbullying is the same behaviour seen in other forms of bullying, just through different technologies, and so it should be addressed through existing anti-bullying measures among parents and schools.
- <u>STATEMENT B</u> say that cyberbullying is a fundamentally different type of bullying that needs special attention from parents and schools, in addition to existing efforts to address bullying in general.

[RANDOMIZE IN SAME ORDER AS QUESTIONNAIRE VERBIAGE]

- Cyberbullying can be handled through existing anti-bullying measures
- Cyberbullying needs special attention

To the best of your knowledge, has a child in your household ever experienced cyberbullying? What about another child in your community?

- Yes, on a regular basis
- Yes, sometimes
- Yes, once or twice
- No, never
- Don't know

Thinking about the kids you know who have experienced cyberbullying, to the best of your knowledge, how did they experience the harassing behaviour? Please select all that apply. [randomize]

- Cellular telephone or other mobile device
- Social networking site like Facebook
- Online chat room
- Email

- We are an independent company among the large global research companies, and are owned and managed by research professionals.
- Our ambition: to make survey-based research one of the primary means to understand contemporary society and economy. And to make Ipsos a strategic partner for those who wish to better understand the world and play an active part in it, with lasting success.
- Our experts are specialised in five areas of activity: we assess market potential and interpret market trends, develop and test emergent or existing products or services and build brands, test advertising, study audience responses to various media, and measure public opinion on issues and reputation.
- We have 10,000 employees working in wholly owned operations in 66 countries, and regularly conduct research in over 100 countries.
- Founded in 1975 by Jean-Marc Lech and Didier Truchot, Ipsos has been publicly traded since 1999. In 2010, Ipsos' revenues exceeded 1B Euros.
