

These are findings from an Ipsos poll conducted for Thomson Reuters April 3-7, 2015. For the survey, a sample of 2,291 Americans, including 893 Democrats, 803 Republicans, and 320 Independents ages 18+ were interviewed online. The precision of the Reuters/Ipsos online polls is measured using a [credibility interval](#). In this case, the poll has a credibility interval of plus or minus 2.3 percentage points for all adults, 3.7 percentage points for Democrats, 3.9 percentage points for Republicans, and 6.2 percentage points for Independents. For more information about credibility intervals, please see the appendix.

The data were weighted to the U.S. current population data by gender, age, education, and ethnicity. Statistical margins of error are not applicable to online polls. All sample surveys and polls may be subject to other sources of error, including, but not limited to coverage error and measurement error. Figures marked by an asterisk (*) indicate a percentage value of greater than zero but less than one half of one per cent. Where figures do not sum to 100, this is due to the effects of rounding. To see more information on this and other Reuters/Ipsos polls, please visit <http://polling.reuters.com/>.

IRAN NUCLEAR DEAL

Q1. From the list below, please choose the topics or issues you have heard or read anything about in the past few days. You can choose as many or few as needed.

| | All adults | Democrats | Republicans | Independents |
|---|------------|-----------|-------------|--------------|
| Iran's development of nuclear weapons | 51% | 51% | 65% | 49% |
| Ongoing negotiations between the United States, Iran and another 5 countries to end Iran's ability to develop nuclear weapons | 55% | 58% | 67% | 56% |

Q2. Now thinking about the rest of the world, would you say your opinion is favorable or unfavorable towards the following countries?

| Iran | All adults | Democrats | Republicans | Independents |
|--------------------------|------------|-----------|-------------|--------------|
| Very favorable | 2% | 2% | 2% | 2% |
| Somewhat favorable | 4% | 5% | 3% | 3% |
| Lean towards favorable | 12% | 16% | 7% | 12% |
| Lean towards unfavorable | 26% | 31% | 19% | 24% |
| Somewhat unfavorable | 18% | 21% | 16% | 22% |
| Very unfavorable | 38% | 25% | 53% | 37% |
| Total favorable | 18% | 23% | 11% | 17% |
| Total unfavorable | 82% | 77% | 89% | 83% |

Q3. Diplomatic relations between the United States and Iran are substantively improving. Which of the following statements comes closer to your personal view?

| | All adults | Democrats | Republicans | Independents |
|---|------------|-----------|-------------|--------------|
| The US is right to improve its diplomatic relations with Iran | 30% | 48% | 18% | 26% |
| The US should hold a hard line with Iran and maintain or expand current sanctions | 36% | 23% | 60% | 40% |
| Unsure | 33% | 29% | 22% | 34% |

Q4. Thinking about Iran's nuclear program, do you think that it is for...

| | All adults | Democrats | Republicans | Independents |
|---|------------|-----------|-------------|--------------|
| Peaceful purposes (e.g. energy) | 12% | 17% | 8% | 10% |
| Weapons development (e.g. nuclear bomb) | 56% | 48% | 74% | 62% |
| Unsure | 32% | 34% | 18% | 28% |

Q5. When it comes to preventing Iran from developing a nuclear bomb, do you think the US should...

| | <u>All adults</u> | <u>Democrats</u> | <u>Republicans</u> | <u>Independents</u> |
|-------------------------|-------------------|------------------|--------------------|---------------------|
| Use diplomatic channels | 29% | 41% | 22% | 27% |
| Use military force | 7% | 5% | 11% | 6% |
| Both | 39% | 35% | 50% | 42% |
| Neither | 5% | 4% | 2% | 8% |
| Unsure | 20% | 15% | 15% | 17% |

Q6. If Israel were to launch military strikes on Iran to prevent Iran from developing a nuclear weapon, would you approve or disapprove this action?

| | <u>All adults</u> | <u>Democrats</u> | <u>Republicans</u> | <u>Independents</u> |
|--|-------------------|------------------|--------------------|---------------------|
| I would approve of it as long as it was supported by the US government | 11% | 14% | 12% | 10% |
| I would approve of it even if the US government did not support it | 26% | 15% | 45% | 27% |
| I would disapprove of it if the US government didn't support it | 9% | 12% | 9% | 9% |
| I would disapprove of it even if the US government supported it | 20% | 29% | 11% | 21% |
| Not sure | 34% | 31% | 23% | 34% |

Q7. Please indicate the extent to which you agree or disagree with each of the following statements:

| All adults | <u>Strongly agree</u> | <u>Somewhat agree</u> | <u>Somewhat disagree</u> | <u>Strongly disagree</u> | <u>Unsure</u> | <u>TOTAL AGREE</u> | <u>TOTAL DISAGREE</u> |
|---|-----------------------|-----------------------|--------------------------|--------------------------|---------------|--------------------|-----------------------|
| The United States should not become involved in any military action in the Middle East unless America is directly threatened. | 30% | 31% | 17% | 8% | 14% | 60% | 26% |
| The United States should use its military power to defend Israel against threats to its security, no matter where they come from. | 21% | 26% | 22% | 12% | 19% | 48% | 34% |

| % Total Agree | <u>All adults</u> | <u>Democrats</u> | <u>Republicans</u> | <u>Independents</u> |
|---|-------------------|------------------|--------------------|---------------------|
| The United States should not become involved in any military action in the Middle East unless America is directly threatened. | 60% | 72% | 54% | 63% |
| The United States should use its military power to defend Israel against threats to its security, no matter where they come from. | 48% | 44% | 63% | 42% |

Q8. How much, if anything, do you know about the outlines of the preliminary deal recently reached between Iran and the United States, Britain, France, Germany, Russia and China to freeze Iran's nuclear program, in exchange for lifting some sanctions on the country?

| | All adults | Democrats | Republicans | Independents |
|---------------------------|------------|------------|-------------|--------------|
| A great deal | 6% | 6% | 7% | 5% |
| A fair amount | 18% | 23% | 19% | 15% |
| A little bit | 37% | 38% | 43% | 39% |
| Not heard anything at all | 39% | 33% | 31% | 42% |
| Total Aware | 61% | 67% | 69% | 58% |

Q9. As you may know, Iran and the United States, Britain, France, Germany, Russia and China recently agreed to the outlines of a preliminary nuclear fuel deal. The deal would involve Iran undergoing inspections of uranium enrichment sites, limitations on the number of centrifuges that Iran can use to enrich uranium, and the removal of the majority of Iran's stockpiles of existing fuel. In exchange, the US, EU, and UN would begin the process of lifting sanctions against the country with financial sanctions lifted immediately. Technical details of the preliminary deal must to be finalized by June 30th and would expire in 10 years. Broadly speaking, do you support or oppose this deal?

| | All adults | Democrats | Republicans | Independents |
|----------|------------|-----------|-------------|--------------|
| Support | 36% | 50% | 31% | 33% |
| Oppose | 18% | 10% | 30% | 21% |
| Not sure | 46% | 39% | 40% | 45% |

Q10. As a consequence of this preliminary deal, in your opinion will Iran become a greater or lesser threat to...

| All adults | Greater threat | Lesser threat | No impact |
|--|----------------|---------------|-----------|
| US | 39% | 32% | 29% |
| Israel | 45% | 29% | 26% |
| The European Union | 33% | 35% | 32% |
| Iran's other regional neighbors, including Iraq and Saudi Arabia | 42% | 28% | 30% |
| Democrats | Greater threat | Lesser threat | No impact |
| US | 28% | 44% | 29% |
| Israel | 36% | 40% | 24% |
| The European Union | 21% | 46% | 33% |
| Iran's other regional neighbors, including Iraq and Saudi Arabia | 33% | 37% | 30% |
| Republicans | Greater threat | Lesser threat | No impact |
| US | 55% | 23% | 21% |
| Israel | 63% | 18% | 19% |
| The European Union | 49% | 27% | 24% |
| Iran's other regional neighbors, including Iraq and Saudi Arabia | 57% | 21% | 22% |
| Independents | Greater threat | Lesser threat | No impact |
| US | 40% | 30% | 30% |
| Israel | 45% | 28% | 27% |
| The European Union | 34% | 34% | 32% |
| Iran's other regional neighbors, including Iraq and Saudi Arabia | 38% | 26% | 36% |

Ipsos Poll Conducted for Reuters

Iran Nuclear Deal 04.07.2015

Q11. In your opinion, is the United States doing enough to keep Iran from developing nuclear weapons?

| | <u>All adults</u> | <u>Democrats</u> | <u>Republicans</u> | <u>Independents</u> |
|------------|-------------------|------------------|--------------------|---------------------|
| Yes | 21% | 34% | 15% | 18% |
| No | 36% | 22% | 58% | 40% |
| Don't know | 42% | 44% | 27% | 42% |

How to Calculate Bayesian Credibility Intervals

The calculation of credibility intervals assumes that Y has a binomial distribution conditioned on the parameter θ , i.e., $Y|\theta \sim \text{Bin}(n, \theta)$, where n is the size of our sample. In this setting, Y counts the number of “yes”, or “1”, observed in the sample, so that the sample mean (\bar{y}) is a natural estimate of the true population proportion θ . This model is often called the likelihood function, and it is a standard concept in both the Bayesian and the Classical framework. The Bayesian ¹ statistics combines both the prior distribution and the likelihood function to create a posterior distribution. The posterior distribution represents our opinion about which are the plausible values for θ adjusted after observing the sample data. In reality, the posterior distribution is one’s knowledge base updated using the latest survey information. For the prior and likelihood functions specified here, the posterior distribution is also a beta distribution ($\pi(\theta/y) \sim \beta(y+a, n-y+b)$), but with updated hyper-parameters.

Our credibility interval for ϑ is based on this posterior distribution. As mentioned above, these intervals represent our belief about which are the most plausible values for ϑ given our updated knowledge base. There are different ways to calculate these intervals based on $\pi(\theta/y)$. Since we want only one measure of precision for all variables in the survey, analogous to what is done within the Classical framework, we will compute the largest possible credibility interval for any observed sample. The worst case occurs when we assume that $a=1$ and $b=1$ and $y=n/2$. Using a simple approximation of the posterior by the normal distribution, the 95% credibility interval is given by, approximately:

$$\bar{y} \pm \frac{1}{\sqrt{n}}$$

For this poll, the Bayesian Credibility Interval was adjusted using standard weighting design effect $1+L=1.3$ to account for complex weighting²

Examples of credibility intervals for different base sizes are below. Ipsos does not publish data for base sizes (sample sizes) below 100.

| Sample size | Credibility intervals |
|-------------|-----------------------|
| 2,000 | 2.5 |
| 1,500 | 2.9 |
| 1,000 | 3.5 |
| 750 | 4.1 |
| 500 | 5.0 |
| 350 | 6.0 |
| 200 | 7.9 |
| 100 | 11.2 |
