

Political Instability

In this latest Global @dvisor poll, respondents from 24 countries around the world evaluate their current governments and national leaders.

16/06/2016

Majority Around the World Say Current Leaders Should Be Replaced

Six in 10 (62%) respondents in 24 countries around the world agree that their current national leader and the government that leader presides over should be replaced by someone else. 59% agree their leaders have a hidden agenda and half (54%) agree their leaders are in power for themselves and not for any other reason.

EI1. [Summary - Top2Box (Very much agree/Somewhat agree)] Thinking about your current primary leader and the national government they preside over, please indicate if you very much agree, somewhat agree, somewhat disagree or very much disagree with the following statements about that person and/or the government they represent: Base: N=17,026

Politicians Beware

Over half (54%) of global respondents agree that their current primary leader and their national government should be swept from power. South Africa (83%), Mexico (73%) and Spain (67%) are at the top of the list. Countries where the least number of respondents agree with a sweeping government overhaul are Argentina (25%), Russia (25%) and Canada (36%).

EI1.4. [Should be swept from power] Thinking about your current primary leader and the national government they preside over, please indicate if you very much agree, somewhat agree, somewhat disagree or very much disagree with the following statements about that person and/or the government they represent: Base: N=17,026

Looking on the Bright Side

Half (45%) of global citizens agree that their national leader and their government have policies that are good for their country. Majorities support their government in India (82%), Russia (75%), Canada (67%) and Argentina (65%). Only three in ten (28%) agree that their government's policies are good in South Africa, followed by France (28%) and Spain (31%).

EI1.2. [Have policies that are good for our country] Thinking about your current primary leader and the national government they preside over, please indicate if you very much agree, somewhat agree, somewhat disagree or very much disagree with the following statements about that person and/or the government they represent: Base: N=17,026

METHODOLOGY

- The survey instrument is conducted monthly in 25 countries around the world via the Ipsos Online Panel system. The countries reporting herein are Argentina, Australia, Belgium, Brazil, Canada, China, France, Great Britain, Germany, Hungary, India, Italy, Japan, Mexico, Peru, Poland, Russia, Saudi Arabia, South Africa, South Korea, Spain, Sweden, Turkey and the United States of America.
- For the results of the survey presented herein, an international sample of 17,026 adults aged 18-64 in the US and Canada, and age 16-64 in all other countries, were interviewed between May 20th and June 3rd. Approximately 1000+ individuals participated on a country by country basis via the Ipsos Online Panel with the exception of Argentina, Belgium, Chile, Colombia, Hungary, India, Mexico, Peru, Poland, Russia, South Africa, South Korea, Sweden and Turkey, where each have a sample approximately 500+. The precision of Ipsos online polls are calculated using a credibility interval with a poll of 1,000 accurate to +/- 3.5 percentage points and of 500 accurate to +/- 5.0 percentage points. For more information on the Ipsos use of credibility intervals, please visit the Ipsos website.
- In countries where internet penetration is approximately 60% or higher the data output is comparable the general population. Of the 24 countries surveyed online, 15 yield results that are balanced to reflect the general population: Argentina, Australia, Belgium, Canada, France, Germany, Hungary, Italy, Japan, Poland, South Korea, Spain, Sweden, United Kingdom and United States. The eight remaining countries surveyed –Brazil (53% Internet penetration among the citizenry), China (46%), India (19%), Mexico (41%), Peru (40%), Russia (59%), South Africa (47%) and Turkey (47%)—have lower levels of connectivity therefore are not reflective of the general population; however, the online sample in these countries are particularly valuable in their own right as they are more urban/educated/income than their fellow citizens and are often referred to as “Upper Deck Consumer Citizens”.

GAME CHANGERS
