

Back in December 1989, 14 young women were murdered by a gunman at the University of Montreal. A number of vigils and other events will be held in December to remember the young women who were killed. Some women's groups holding these events have said that they won't allow men to attend. They say that since the murders were motivated by male violence against women, that it would be inappropriate for men to attend the events.

Do you agree or disagree with this position? (Is that strongly or somewhat agree/disagree?)
