Now thinking about the dispute that is taking place over Iraq, Some people say that the major reason for the dispute is that the Iraqi government led by Saddam Hussein continues to build weapons of mass destruction and represents a real threat to world peace. Other people say that the real reason for the dispute over Iraq is that the U.S. government led by George W. Bush just wants to remove Saddam Hussein from office even though his government is no longer a serious threat to world peace. Which statement is closest to your point of view ?
