Detailed Tables

As you may know, when water collects on the road, your vehicle can hydroplane. In other words, the vehicle's tires lose their contact with the road and have little or no traction and you may not be able to steer or brake. Now, thinking of hydroplaning, I'd like you to tell me whether you strongly agree, somewhat agree, somewhat disagree, or strongly disagree with each of the following statements: Low tire air pressure increases the likelihood of your vehicle hydroplaning ?

Detailed Tables

As you may know, when water collects on the road, your vehicle can hydroplane. In other words, the vehicle's tires lose their contact with the road and have little or no traction and you may not be able to steer or brake. Now, thinking of hydroplaning, I'd like you to tell me whether you strongly agree, somewhat agree, somewhat disagree, or strongly disagree with each of the following statements: To avoid hydroplaning you should drive in the tracks of the vehicles ahead of you when it is raining ?
