3. As you may know, there has been a lot of debate about Canada's Healthcare system over the last many years to solve such issues as waiting times for surgery and other services, physician and nursing shortages, Pharmacare and infrastructure upgrades for patient care. I'm now going to read you a list of things which could help in addressing some of these issues, and for each one I'd like you to tell me whether you strongly agree, somewhat agree, somewhat disagree, or strongly disagree with each proposal: 4) Hiring more nurses to reduce waiting times to receive medical or surgical attention ?

3. As you may know, there has been a lot of debate about Canada's Healthcare system over the last many years to solve such issues as waiting times for surgery and other services, physician and nursing shortages, Pharmacare and infrastructure upgrades for patient care. I'm now going to read you a list of things which could help in addressing some of these issues, and for each one I'd like you to tell me whether you strongly agree, somewhat agree, somewhat disagree, or strongly disagree with each proposal: 7) Providing Government programs to allow nurses to phase-in their retirement over a number of years ?

3. As you may know, there has been a lot of debate about Canada's Healthcare system over the last many years to solve such issues as waiting times for surgery and other services, physician and nursing shortages, Pharmacare and infrastructure upgrades for patient care. I'm now going to read you a list of things which could help in addressing some of these issues, and for each one I'd like you to tell me whether you strongly agree, somewhat agree, somewhat disagree, or strongly disagree with each proposal: 3) Increasing personal taxes by about fifty dollars a year to eliminate for everyone up-front costs for prescription drugs such as co-pays and deductibles: and to provide prescription drug coverage to Increasing personal taxes by about fifty dollars a year to eliminate for everyone up-front costs for prescription drugs such as co-pays and deductibles: and to provide prescription drug coverage to everyone not now covered ?
