As you may know, Justice Gomery has released his report on the sponsorship scandal. I'd like to ask you some questions about the report and its implications. For each statement, I'd like you to tell me if you agree, or disagree: Since Justice Gomery absolved Prime Minister Paul Martin of any blame in his report, I will not be thinking about the sponsorship scandal when I decide who to vote for in the next federal election?

As you may know, Prime Minister Martin promised to call an election 30 days after Justice Gomery released his second report in February 2006. Because of what was revealed in the first Gomery Report, do you think the Prime Minister needs to call an election 30 days from now, do you think an election can still wait until 30 days after Justice Gomery releases his second report in February, or do you think the Prime Minister isn't obligated to link the timing of an election to the release of Justice Gomery's reports?
