

PERCEPTIONS OF ALBERTA ELECTRICITY INDUSTRY

A number of organizations are responsible for the operation of the electricity system in Alberta. Based on what you know today and your own general impressions, how confident are you that these organizations are effectively managing the electricity system to meet the needs of Albertans? Are you ...?

BUILDING NEW TRANSMISSION

As I mentioned earlier, electricity transmission lines run along areas called Utility Corridors or Right of Ways. As the province continues to grow, it is possible that new electricity transmission lines will be required to serve the needs of your community. Would you support or oppose the development of new electricity transmission lines in your area to serve this purpose? Is that strongly or somewhat?
