

1. Mixed martial arts' is a contact sport often times referred to as 'Ultimate Fighting' where two contestants enter an octagonal enclosure with a referee for three to five rounds. Contestants use a mix of martial arts techniques to defeat their opponent, and judges score each round. Since its inception in 1993, it has evolved into a professional, international sport that follows a common set of rules established by the New Jersey State Athletic Commission and has strict contact/conduct rules to support the safety of its participants. Which of the following have you done with respect to this sport?
