1. With the new Harmonized Sales Tax (HST) now in effect in Ontario, the price of gas has effectively been raised by 8 per cent. A litre of gas that would have cost \$1 on June 30, jumped to \$1.08 on July 1. A tank of gas that would have cost \$50 on June 30, jumped to \$54 on July 1 To what extent has this or will this impact your driving habits?
