

8. Many in Britain argue that the rules of succession to the British monarchy - which is Canada's monarchy too - should change. The current rule says that the monarch is succeeded first in line by his sons in order of age, even if he has a daughter who is older than the monarch's sons. Some in Britain argue that daughters should have equal rights to ascend the throne - that is, that if the monarch's first-born child is a girl, she should be the first in line for the throne.
