

4. Now that mayor Ford has been in office for 100 days, are you more confident, less confident or neither/more or less confident in the future of the city of Toronto than you were last November before the Municipal election?

5\_1. (There is enough waste and inefficiency at City Hall that \$774 million could very well be cut from the operating budget and still keep current programs in place) Toronto City Council has approved the 2011 \$9.383-billion operating budget for the city. By repealing the vehicle tax and holding the line on property taxes to a zero percent increase, it's likely that an estimated \$774 million budget shortfall for next year's budget will have to be made up by either cutting some programs and services, finding money-saving efficiencies throughout City Hall, raising some taxes or a combination of the three. I'm confident that Mayor Ford can make significant spending cuts without making major service cuts over the next two years	194	19	20	42	42	71	34	69	91	38	156

There is enough waste and inefficiency at City Hall that \$774 million could very well be cut from the operating budget and still keep current programs and services in place	135	14	14	24	40	42	26	44	65	31	104

5. (Low2box Summary) Toronto City Council has approved the 2011 \$9.383-billion operating budget for the city. By repealing the vehicle tax and holding the line on property taxes to a zero percent increase, it's likely that an estimated \$774 million budget shortfall for next year's budget will have to be made up by either cutting some programs and services, finding money-saving efficiencies throughout City Hall, raising some taxes or a combination of the three.
