HEALTH ACT

5. The federal government is the custodian of the Canada Health Act. The Canada Health Act ensures that Canadians, no matter where they live or their ability to pay can get access to medical treatment. Do you believe this role is very important, somewhat important, not very important, or not at all important?

HEALTH CARE ACCORD

6. In 2004 the federal and provincial governments agreed on a health care accord that determined how much the federal government would contribute to the provincial health care systems. This agreement is set to expire in 2014. Please indicate whether you strongly agree, somewhat agree, somewhat disagree, or strongly disagree with the following statement: It is important that the leaders of the national parties commit to bringing provincial and territorial premiers together with the next prime minister, immediately after the election, to renegotiate the Health Accord that expires in 3 years.
