q2. The federal government is responsible for the Canada Health Act which ensures a level of care for Canadians, no matter where they live and it also provides guidelines so that residents traveling to another province can also receive care. In your opinion, is this role very important, somewhat important, not very important, or not important at all?

	Total	Region						Age			Gender

q11.[I would encourage my premier to adopt a series of principles that make the health care system more centred on the needs of patients] Canada's physicians and nurses have developed a series of principles to make the health care system more centred on the needs of patients. These principles have been adopted by some 70 organizations including patient groups. That being said, please tell me if you strongly agree, somewhat agree, somewhat disagree, or strongly disagree with the following statement:

	Total	Region						Age			Gender
