1_12. [Enhancing the Canadian Pension Plan to allow Canadians to increase their contributions to ensure greater benefits in the future]

Below is a list of political or economic ideas the federal Liberal Party is considering at its upcoming policy convention. For each, I'd like you to indicate, if the Liberals decide to make this party policy, whether it make you more likely, less likely or make difference to whether or not you vote for them in the next federal election.

2. One issue that's received attention lately concerns the 'right to die' - that is, whether a person who is terminally ill and wants to die before enduring the full course of the disease should have the right to take their own life. As a moral question, do you personally support or oppose the concept of people having the 'right to die'?
