4. One aspect of the new Elections Act is that unless someone can prove their identity and address on election day they will not be allowed to vote. There are 39 different pieces of ID ranging from a driver's license to a utility bill that qualify as valid proof of identity and address. In your view, is it reasonable or unreasonable to require someone to prove their identity and address before they are allowed to vote?

5. Under the old Elections Act, someone without proper ID was allowed to vote if another person who was qualified to vote signed an oath on election day saying that the person without ID was who they said they were. This process is called vouching. Under the new Elections Act vouching will no longer be allowed. In your view, is it acceptable or unacceptable to eliminate vouching and require voters to personally prove their identity and address before they are allowed to vote?
