

1. As you may know, abortion in Canada is not limited by law. We haven't had a national abortion law since our Supreme Court decided on a case in 1988. For you personally, is NOT having a national abortion law acceptable, unacceptable, or you really don't care one way or the other

2. Do you think that the national government should reopen the issue of abortion, that we should just leave things as they are, or you really don't care one way or the other?

3. As you may know, Federal Liberal Leader Justin Trudeau recently announced that all new prospective candidates for the Liberal Party in the future must agree to vote in favour of a woman's right to choose whenever votes about abortion arise in the House of Commons. Without agreeing ahead of time, their candidacy to run for the Liberal Party could be declined. Sitting MPs would not be impacted. Which of the following is closer to your point of view:

		REGION						HOUSEHOLD INCOME				HOUSEHOLD

As party leader, Justin Trudeau has the right to decide if he only wants pro-choice candidates to run for the Liberals in the next election.	304	47	26	18	114	78	22	112	51	58	51	73	231

4. Because of Justin Trudeau's stand that all prospective candidates for the Liberal Party in the future must agree to vote in favour of a woman's right to choose whenever votes about abortion arise in the House of Common, does it make you more likely to vote for the Federal Liberal Party, less likely to vote for the federal liberal Party or has no impact either way on your vote intentions.
