1. The United States and United Kingdom have identified and publicly report on what they call never events for healthcare. Never Events or Preventable Events are patient safety incidents that lead to serious harm or death and are deemed to be preventable. They include things like having the wrong body part operated on or a tool left in you during surgery, being given a medication that you know you are allergic to, or a baby being abducted or discharged to the wrong person. How concerned are you about these preventable events

5_2. Please tell me whether you strongly agree, somewhat agree, somewhat disagree or strongly disagree with each of the following statements about Indigenous health? - I support the collection and public reporting of data about Indigenous health problems such as infant mortality, suicide, mental health, chronic diseases and addictions so that the public is kept informed on whether these problems are being addressed.

5_3. Please tell me whether you strongly agree, somewhat agree, somewhat disagree or strongly disagree with each of the following statements about indigenous health? - I am optimistic that if Canadian governments make improving Indigenous health a priority Indigenous Canadians can have the same health status as other Canadians.

5_4. Please tell me whether you strongly agree, somewhat agree, somewhat disagree or strongly disagree with each of the following statements about indigenous health? - It is clear that the health concerns faced by Indigenous patients will not be solved unless a new approach is used by the federal and provincial governments in delivering health care services.

5_5. Please tell me whether you strongly agree, somewhat agree, somewhat disagree or strongly disagree with each of the following statements about Indigenous health? - To solve the health issues faced by Indigenous patients, governments need to work with indigenous communities to address all of the social determinants of health, such as poverty, poor living conditions, low levels of education, and healthcare access.

5_6. Please tell me whether you strongly agree, somewhat agree, somewhat disagree or strongly disagree with each of the following statements about indigenous health? - In areas where there is a significant aboriginal population, hospitals should have strategies and plans developed specifically for providing services to Indigenous Canadians.

9_7. Please tell me whether you strongly agree, somewhat agree, somewhat disagree or strongly disagree with each of the following statements about seniors health? - Some seniors are more vulnerable and in need of more health care services than other seniors. The health care system needs to do a better job of identifying the needs of frail seniors and providing them with the increased care that they need.
